

CREAM SEPARATORS

Over One Hundred Sold Within Last Thirty Days

THE NEW IOWA

Built Like A Watch

Closest Skimmer On Earth

WRITE for a Descriptive Catalog and Prices. The "NEW IOWA" is so Simple any Woman or Girl can Understand it.

The NEW IOWA will skim closer and give a heavier testing cream under every condition than any other cream separator made.

THREE FACTS

The New 1. Skims milk of any temperature.
Iowa 2. Skims any grade of cream desired.
Bowl 3. Gets the last particle of cream out of the milk.
It is the only bowl made that will do these three things.

Iowa Dairy Separator Co.
Waterloo, Iowa.

Gentlemen:—We have made several tests of your separator and find that it does excellent work, even when run under very unfavorable conditions. We find that it skims to a trace in skimming milk as cold as 70, and also that it would skim beyond its rated capacity. We are entirely satisfied, and the machine you sent us on trial is accepted.

Yours very truly,
A. W. TROW.

Iowa Dairy Separator Co.
Waterloo, Iowa.

We are pleased to report the results of several tests made with the Iowa Dairy Separator, mentioned below:

Name of Separator, Iowa Dairy; temperature of milk, 60; turns of crank per minute, 60; rated capacity, 450; actual capacity, 470; test of cream, .23; test of skim milk, .02.

Name of separator, Iowa Dairy; temperature of milk, 90; turns of crank per minute, 58; rated capacity, 450; actual capacity, 460; test of cream, .55; test of skim milk, .0125.

In the tests made on this date the separator did very satisfactory work. Notice date which refers to winter skimming.

W. B. RICHARDS.

ASSISTANT PROFESSOR OF ANIMAL HUSBANDRY.
